

POWERFUL TOGETHER

#VERSE

You may not believe me
So just hold me closely
It's never easy to see
How we all fall down hopelessly

#PRE-CHORUS

But we don't need to drown
On cold water
Our fate has not been sealed
We can change that

#CHORUS

One grain of sand
Is nothing without
The rest of the beach
One drop of water
Can't make a flood
Unless there are other ones to help it
One lonely tree
Can't make a forest
All on its own
They're like you and me
(Like you and me)
Powerful together

#VERSE

I promise I am still the same
(I'm still the same)
So please listen calmly
(Calmly)
There's not a reason to be scared
Please don't leave me lonely

#PRE-CHORUS

'Cause we don't need to drown
On cold water
Our fate has not been sealed
We can change that

#CHORUS

One grain of sand
Is nothing without
The rest of the beach
One drop of water

Can't make a flood
Unless there are other ones to help it
One lonely tree
Can't make a forest
All on its own
They're like you and me
Powerful together

#BRIDGE

Oh, powerful together
Oh, Powerful together
Powerful, powerful
Powerful together
Powerful, powerful
Powerful together

#CHORUS

One grain of sand
Is nothing without
The rest of the beach
One drop of water
Can't make a flood
Unless there are other ones to help it
One lonely tree
Can't make a forest
All on its own
They're like you and me
Powerful together
