

# ROLLERCOASTER

## #VERSE

It's hard to keep your head held high  
When every once in a while your body is in denial  
I know my life is going well  
But sometimes it feels like I'm in hell  
This mind keeps me held in a rollercoaster  
Up in the sky, then it turns to dust

## #PRE-CHORUS

I wish I could scream out-loud  
Blow away this massive cloud  
Filled with fear and sorrow  
Making me scared of tomorrow

## #CHORUS

And it's bullshit  
'Cause I thought that I got over it  
But no, turns out, that it will follow me  
Till I'm gone for sure  
And pill after pill, I wish I could feel like  
I can do anything, just like I did before  
But I'm still scared, that in the end  
I will crumble to the floor

## #VERSE

Life hasn't always shown me light  
Sometimes I only see darkness  
That makes me feel blind  
And at times, all I see is white  
I get blinded by the brightness  
This mind keeps me held in a rollercoaster  
Up in the sky, then it turns to dust

## #PRE-CHORUS

I wish I could scream out-loud  
Blow away this massive cloud  
Filled with fear and sorrow  
Making me scared (of tomorrow...)

## #CHORUS

And it's bullshit  
'Cause I thought that I got over it  
But no, turns out, that it will follow me  
Till I'm gone for sure  
And pill after pill, I wish I could feel like

I can do anything, just like I did before  
But I'm still scared, that in the end  
I will crumble to the flo-o-o-o-or  
Oh-oh-oh-oh-oh-oh  
Oh-oh-oh-oh-oh  
Oh-oh-oh-oh-oh  
I will crumble
